HBVs100

Hepatitis B s100 Prescriber course – Part 1: Online Modules (3 hours)

These online learning modules are designed for registrants of the Hepatitis B s100 Prescriber Course and are a prerequisite for the one day face-to-face training.

Module 1 covers priority populations, testing and diagnosis of hepatitis B. Participants will review priority populations for hepatitis B screening, identify which tests are to be ordered, and be able to interpret serology to determine if a patient is susceptible, vaccinated, previously exposed, and has acute or chronic hepatitis B infection.

Modules 2 through 6 follow a family through their various diagnoses of hepatitis B. Participants will follow the journey of each family member covering issues such as, diagnosis, assessment and initial management, HBV, advanced liver disease and HCC, HBV and immune suppression, HBV and pregnancy

Each module includes opportunities for self-assessment to ensure learning objectives are met.

Target audience: GPs
CPD: RACGP accredited and has been awarded 7 Category 2 QI&CPD points
Type: eLearning Module (2015)
